1. This action is responsive to the Preliminary amendment filed on July 21, 2004. Claims 11, 3, 10, 16, 21, 25, and 27 were amended. Claims 32-36 were newly added. Claims 2, 11-13, 15, 17, 22, and 24 were canceled. Claims 1, 3-10, 14, 16, 18-21, 23, and 25-36 are pending.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CAR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3-9, 27-28, 30, 10, 14, 16, 18-21, 23, and 29, drawn to computer to computer protocol implementing classified in class 709, subclass 230.

Group II, claim(s) 25-26, and 31-36, Computer-to-computer data framing classified in class 709, subclass 236.

The inventions are distinct, each from the other because of the following reasons:

Inventions I -II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as "selecting a decoding scheme and decoding in accordance with the selected decoding scheme". Invention II is directed toward "encapsulating digital data within a plurality of data segments". See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Cory G. Claassen (Registration No. 50,296) on September 27, 2000 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if

Art Unit: 2157

one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

A shortened statutory period for response to this action is set to expire **0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C. 133, M.P.E.P 710.02, 710.02(b)).
